Princeton Lakes Pediatrics Gets “Mom” Approved!

We'd like to thank all of you for submitting your reviews and nominating us to appear on Atlanta Parent magazine's list of recommended pediatricians in the Atlanta area. It's quite an honor to receive this distinction and vote of confidence from our patients.

In case you didn't see it, pick up a copy of this month's edition of Atlanta Parent magazine or go to this web link on your computer or mobile device: <http://issuu.com/atlantaparent/docs/june2015/38>

This list was designed to give an opportunity for Moms and Dads to nominate pediatricians they would recommend and to share why their doctor's child is special.

Some of the wonderful comments we received from you all were:

“I had to change doctors for my son because he was terrified of the one he had. When I took him to Dr. Drayton all the crying and screaming went away. He never had a problem going to the doctor after that and he gets sick often enough. Dr. Drayton is my savior when it comes to my son's health.”

“Dr. Drayton is an awesome and attentive and professional by using various methods to get great results for her patient. The office is accessible, clean and located in a vibrant location. I would recommend Dr. Drayton to anyone.”

“[The] new office is a great location for me. My son has been with Dr. Drayton since he was born.”
